

Johnson Grammar School

fosters innovation over imitation

Early childhood is an important period for cognitive and psychosocial development. Young minds learn, adapt and transform with stimulation that comes their way. We, hence believe the formation of dynamic personalities can start early too.

What creative movement aims for...

Fosters creativity and innovation

These classes help children use their bodies to convey an idea, therefore fostering a body mind connect.

“ We enjoyed participating in the activities conducted by GAIT at the school. I feel this programme will develop my child’s creativity and ability to express his thoughts confidently ”

- Parent of Akshay GVN (LKG)

“ The activities build creativity and analytical skills in the child ”

- Parent of Sahasra (UKG)

Creative movement is a tool to mould leadership skills

Builds awareness

Through creative movement, children explore different fun movements and understand their bodies better.

“ We are happy that you encourage creative activities, as children can develop their skills by observing things done in daily life ”

- Parent of Niveditha H.V (Grade 2)

Develops social skills through team work

The child comes together with peers to share ideas and come up with a unique presentation.

The ability of children to share, take turns and work with other children promotes social development.

“ Our kid is happy and excited about the movements & dance. She also shared this activity with friends near our home ”

- Parent of Divija Mantha (LKG)

Builds confident expressive individuals

Through the program, children have grown from being silent and shy to being free-spoken. Physical activity boosts confidence and helps children express emotions and feelings better.

“ I appreciate the initiative taken by the school as such activities helps in nurturing the child’s talent, apart from improving the confidence level of the child ”

- Parent of Rithvik N (LKG)

“ It helps children to build their overall personality and innovative ideas. Helps children in improving artistic skills, good learning practices and spontaneous response to the situation. It will also help in overall development and grooming from childhood ”

- Parent of D. Krishna Chaithanya (UKG)

Children learn better with experiential learning

Parent-Child engaging experience

Spending quality time with your child helps building bonds of attachment and security.

The program adopts competence through observation, reflection, reasoning and problem solving with the most intriguing instrument which is unique to each of your kids- THE BODY.

“ By doing this activity along with my kid we got to spend a lot of time together and explore many things at home by observing them ”

- Parent of P Ruthwil Reddy, (UKG)

“ Firstly, let me thank you for introducing GAIT activity to children .The activities that are being taught to them are having a real good impact both on the child’s body language as well as on a psychological perspective. My child can express her thoughts in a very impressive and appealing way. Her body gestures have changed too. Thought process has changed and developing finely.

Thank you once again ”

- Parent of M Sri Nidhi Sanjana, UKG

The GAIT program is a creative movement framework built from the elements of dance and theatre.

Johnson Grammar School in partnership with GAIT thanks you for supporting us mould a confident and creative individual of tomorrow!
